J. R. HAWLEY, *President.*

CALIFORNIA STATE LIBRARY

PREFACE.

THE constant and increasing demand made upon us for Specimen Books has led us to furnish the present larger and more complete book than that we have heretofore issued.

Whilst it would be impossible to represent every grade and variety of color, tints, &c., within its limits, we have endeavored, as much as possible, to group together the various grades that are most sought after, along with their prices, and to call attention to several new features, among them our Gloss Varnishes and Gloss Black Inks for Label and Bookbinders' use, that we believe have no superior.

In the selection of cuts employed we have purposely put the Inks to the severest tests, so that printers can readily see for themselves what may be expected of them.

Our aim has constantly been, by the introduction of improved processes and skilled labor, to further the quality and to secure the desired working properties and uniformity required of them.

By the extraordinary enlargement of our works, both in the city and suburbs, during the last three years, we are fully prepared, especially in the various grades of Black Inks, to meet promptly the increasing demand upon us. The improvements, together with the best scientific treatment, enable us to produce our Black Inks of all grades, of superior brilliancy, depth of color, and working properties.

We manufacture all the various Black and Colored Inks for special uses.

Special Inks furnished at net rates, according to quantity ordered.

BOOK and JOB INKS.

$1.00 Wood-Cut or Fine Book Ink.

This Ink is made for use on both Cylinder and Adams Presses, and intended for the finer grades of work on good paper for illustrated magazines and book publications generally.

This Ink is characterized by its lustre, excellent color, and good drying properties.

$1.00 Quick Drying Job.

Where extra quick drying effect is desired we offer our $1.00 Quick Drying Job Ink, suitable for both Card and Job Work.

Pictorial Cut Inks.

We make these Inks suitable for every grade of Illustrated Newspapers, Periodical, and Sunday-School papers. They are very extensively used, at prices ranging from 20 cents to $1.00 per pound, depending upon the quality of paper and the color and lustre desired.

These Inks, together with the various grades of our regular Book Inks, we are prepared to furnish to customers, ordering regularly, at special discounts, depending upon quantities purchased.

NEWS INKS.

Special attention is given to the manufacture of Ink for Perfecting Presses, possessing good depth of color and free distribution, without the liability to fill up or offset. Our processes enable us to make all grades of News Inks of uniform quality, with entire freedom from impurities or sediment, adaptable to all kinds of presses.

Hand-Press and Power-Press, Poster Inks and News Inks furnished in kegs of any size desired. Our Extra Hand-Press News may be used on Drum-Cylinder Presses, and found to dry well where better grades of paper are used, and for the ordinary grades of Almanac and Book Work.

In ordering it is desirable to know the kind of press, rapidity of speed, and character of work Ink is intended for.

To those purchasing in large quantities we are prepared to make very favorable terms.

We call attention to the list of names in our Price List, as showing many of the leading Newspaper Offices in the United States and Canadas where our News Inks are exclusively used.
